

Theme: Sustainable Practices (Grades K to 2)

Post-Visit Activity #1 Now What?

Once the students have completed their tour of the Springs Preserve they will understand the importance of helping our Earth.

Sell or swap items made from recycled goods. Designate a day when you'll all get together to make some stuff, then have a recycled-craft fair. You'd be surprised how much you can make - like bird feeders or flower holders fashioned out of plastic bottles.

Visit

<http://www.make-stuff.com/recycling/>

for some great ideas.
