

DesertSol

Designed and built by the UNLV Solar Decathlon Team, this unique model home placed second in the U.S. Department of Energy's Solar Decathlon in 2013. DesertSol is a model in sustainable construction. The 754-square foot home is clad in pre-weathered materials capable of enduring Las Vegas' harsh desert environment. With its panoramic views of the Springs Preserve's trails and gardens, DesertSol is an ideal venue for your next mixer or other intimate gathering.

- 350 sq ft patio deck and 179 sq ft exterior welcoming "foyer"
- Deck accommodates small gatherings, mixers or receptions (up to 25 guests); kitchen can be used as meeting space for 6 to 8 participants
- Restroom in DesertSol is non-functioning (public lavatories are located nearby)
